WATERFRONT COMPANY REPORTED IN NEW BUY NEW PROBE LOOMS IN "HILL MURDER"

The CORE

Two members of the Teapot Dome jury testified yesterday that unidentified shadowers had solicited their opinions on the guilt or innocence of Fall and Sinclair while the trial was in progress.

A gang of hoodlums ejected from the Granada dance hall in Hammond, Indiana, a week ago, are suspected of the bombing of the \$1,500,000 State Theatre in Hammond yesterday. The dance hall was a part of the theatre.

Hypnotism for the second time in the last 10 days was successfully used as an anesthetic in a surgical operation in Chicago yesterday.

Reports circulated in N. Y. that Arturo Ramos who recently married Millie Rogers Salm was once a bootlicker in Buenos Aires have aroused indignation in the Argentinian capital.

18 delegates out of 31 attending the conference in Geneva for the abolition of import and export prohibitions and restrictions signed an agreement; the U. S. was not a party to the signing owing to lack of instructions.

Letters and packages may now be mailed from Germany to the U. S. with swift carriage by air in both countries.

Ocel Jones, of Washington, D. C., stole a \$90 overcoat while attending church services. He said he waited until every one had filed out and no one claimed it. He will serve 90 days.

Senator Don Francisco Sanchez Latour, Guatemalan minister to the U. S., died in Washington yesterday following an operation for appendicitis.

Joe Lewis, one of Chicago's brightest cabaret stars, was stabbed 12 times last night, as an outgrowth of what is believed to be rivalry for his services. Little hope is held out for his recovery.

Inquest Held In Death Of Three Lost Hunters

Two inquests were conducted last night by Coroner Aubrey Wilson.

At Pittsburg, the jury investigating the circumstances of the death of August Re, Antonio Belicci and Francis Nemanich, of Crockett, whose remains were found floating in the waters of Suisun Bay several days after they had disappeared after a hunting trip, brought in a verdict of accidental drowning. The jury was unable to determine whether the boat the men were in hit another boat or was hit by another boat and placed no blame or cause for the drowning.

A coroner's jury in Brentwood found that Julius Pitts, 60, a resident of that city came to his death due to heart trouble.

HARDWARE FOR HOME BUILDERS

You will find the Architect a crank on hardware—specifications. He insists that the hardware must be of a quality that will last, and of such design as will harmonize with the architecture and the scheme of decoration. Consult the Buyers Guide for the kind of builders hardware that Architects specify.

"Grass Fire" Death Theory Is Discounted

Arguments Advanced By Authorities To Prove Murder

Reiterating his belief that the charred skeleton of the man found on Tapscott Hill, El Cerrito, was burned through application of some powerful heat agent, Chief of Police Forest Wright last night expressed his willingness to co-operate with Alameda county authorities in solving the case, which it is believed originated in Eastbay bootleg haunts.

DISCOUNT THEORY
Emphatically discounting the decision rendered by E. O. Heinrich, Berkeley criminologist, Chief of Police Wright again declared that grass fires could not have accounted for the condition of the bones as they were found on the hill overlooking San Pablo avenue.

OPINION CONCURRED IN
Concurring with the opinion expressed by Chief of Police Forest Wright, of El Cerrito in these columns yesterday in which he disagreed with the findings of Dr. E. O. Heinrich, Berkeley criminologist, that the remains found in the hills of El Cerrito were burned by a grass fire, George Reischneider, deputy coroner, last night declared that only a terrific heat could have destroyed the remains to the extent in which they were found. Reischneider examined the bones and assisted in collecting them.

The theory that they had lain there since last summer was also discounted by him.

TELLS REASONS
Reischneider who as an embalmer has had years of experience in observing the condition of remains, declared that in his belief the body of the identified man had been subjected to fire after it had deteriorated and that the fire was applied in small portions at a time. That the remains were not totally destroyed, he declared, was in all probability due to the fact that the murderer was frightened away. A grass fire covering the small territory on the El Cerrito hills where the remains were found could at most only have burned portions of the clothing and the flesh, he stated.

TERRIFIC HEAT APPLIED
The body of the man was found lying face downward, with only small portions of flesh clinging to the frame and the bones completely charred so that they crumbled at touching. Reischneider stated that a heat of approximately 2,000 degrees Fahrenheit was necessary to cremate remains. He called attention to the Lodi murder, where a man was burned (Continued on Page 5)

Judge Alvarado Has 71 Cases In Court In 1 Day's Time

MARTINEZ, Nov. 8.—Handling 71 criminal and civil cases in addition to four juvenile matters, Superior Judge H. V. Alvarado Monday established what is believed to be a record for the number of cases considered in his court in one day. The 71 cases were not disposed of but in every one an order, decree or motion was heard and ruled upon by the court. Due to the absence of Superior Judge A. B. McKenzie, who is sitting in Los Angeles Superior Court on assignment, the work in Judge Alvarado's department was doubled.

Alpha lodge, Free and Accepted Masons conferred the first degree last night at Masonic hall. Junior Warden Jack McGrath was in charge of the work.

TROLLEY POLE REMOVAL PAVES WAY TO WIDEN LOCAL STREET

Work of Improvement Is Rushed; Total Cost Will Be \$25,000

The widening of Standard avenue is under way. Preliminary to the relaying and rebuilding of the tracks between Garrard boulevard and Castro street, the Key System Transit Company is rearranging its trolley poles. The widening of Standard avenue makes it necessary to move the poles back some twenty feet. The renewal of the poles, according to Key System officials, will cost approximately \$4,000. With the completion of the work on Standard avenue, the Key System will have expended \$25,000.

WORK PROGRESSING
"The work on Standard avenue," says H. P. Bell, vice president in charge of engineering for the Key System, "is progressing rapidly. The track will be entirely new and a splendid roadbed is assured. Our preliminary work calls for a number of replacements of new poles and fixtures. The crew, in charge of E. F. Sibley of the electrical department, is endeavoring to dispose of the work with the utmost dispatch. Some difficulty has been experienced in sinking the new poles. The ground on which we are working was all filled in and our men are encountering a number of rocks and stumps."

Realty Salesmen Entertained At Morning Meet

The Richmond Realty Salesmen's club was entertained at its breakfast yesterday morning by Mrs. Ruby Bryant and Clara Hansen, who presented a burlesque skit, depicting the methods employed by high-pressure salesmen.

Mrs. Bryant suggested to the members that salesmen of other lines be invited to address the members on the methods employed by them.

The meeting was presided over by Paul Adkins, chairman. Those present were: Paul Adkins, Basil H. Spear, Mrs. W. H. Bryant, E. A. Burg, John A. Daniels, C. S. Greene, Harry Preiss, Mrs. Clara Hansen, Mrs. K. A. Cole, E. C. Crane and L. T. Bolt.

Four Certificates Of Birth Filed

Four birth certificates were filed with the city health department yesterday. They included: Leonora Jean Barber, born November 2, to Mr. and Mrs. Liston S. Barber.

Nellie Joyce Fray, born to Paul Fray and Mrs. Frank Fray on November 2.

PRELIMINARY work for the widening of Standard Avenue is under way. The Key System Transit Company now has its crews removing and replacing the trolley poles between Garrard Boulevard and Castro Street.

Wolden And Brady Are Re-Elected

SAN FRANCISCO, Nov. 8.—By a vote that was overwhelming Mayor James Rolph, Jr., swept the city in today's municipal election and carried with him into office William J. Fitzgerald, his candidate for sheriff, defeating by a heavy vote the incumbent, Thomas F. Finn.

The vote of Mayor Rolph was a substantial one in that he carried hundreds of precincts in a huge fashion, completing wiping out opposition.

FINN UPSET
Estimated at better than 25,000, perhaps 30,000 Mayor Rolph's lead broke down the fight of Sheriff Finn and by the defeat of the veteran politician provided the big upset of the city contest.

Second only to the mayoralty battle was that which the Rolph forces put up to beat Sheriff Finn who had sponsored the candidacy of James E. Fitzgerald, his postmaster of San Francisco.

FITZGERALD BIG WINNER
Late returns indicated that Fitzgerald would win by close to a 15,000 majority.

That contest was a two handed fight upon which the Rolph organization concentrated to the limit in the last 10 days of the campaign.

In fact after the organization had decided that Mayor Rolph was entirely safe for re-election they drove in to the hill upon the sheriff fight.

This supplied much of the real scrapping of the bitter campaign.

WOLFEY ON TOP

From the earliest returns right along through the count it was evident Assessor Russell L. Wolden would be the winner in the sharply contested battle over the assessors. He led right along over his only competitor, Supervisor James B. McSheehy and his estimated majority runs around 20,000.

Annual Banquet Celebrated By Richmond Lodge Of Elks

The Richmond lodge of Elks may well be proud of its record in the upbuilding of one of the most progressive organizations of the Pacific Coast, Dr. Hubert N. Rowell, of Berkeley, principal speaker at the annual banquet of the lodge, declared last night.

From one of the smallest in what was then considered "just another oil town" the local lodge has kept pace with progress of the city since its founding fifteen years ago, he stated, paying especial tribute to those members who contributed the original founders.

The history of the Elks lodge was outlined by Dr. Rowell from its inauguration by a group of New York artists in 1885, to its present place as a nation-wide organization.

Entry Of Railway Is Seen In New Purchase Of Fifty-One Acres

TIDELAND HOLDINGS OF BERKELEY WATERFRONT CO., LINKED IN ALMOST CONTINUOUS LINE

The Berkeley Waterfront Company, the mysterious corporation, which has extended its tideland holdings almost without a break through Albany and Berkeley into Richmond, was yesterday reported to have acquired the 51 acre Schloss and Mayfield site, on the south end of the Richmond harbor basin and Pt. Isabelle. The sale price was not revealed, but it is known that the land is assessed at \$120 per acre.

WATERFRONT LINKED

The latest purchase culminates the acquisition last month of 83 acres of Pt. Isabelle property of the DuPont Powder company.

With the buying of the Schloss and Mayfield acreage the Waterfront company commands an immediate access to the inner harbor, and nearly a continuous series of holdings which have been acquired at various times seemingly with the object of connecting the links along the bay waterfront.

It is declared that no such undertaking as this would be attempted unless the ultimate goal were to provide rich freight profits accruing to a railroad from waterfront business.

RUMOR RAILWAY ENTRY

Although three trans-continental railway systems have been identified with the Berkeley Waterfront Company, efforts to ascertain any of the stockholders of the "corporation nobody knows" have proved without avail.

It is admitted that a line run along the waterfront would be of immense value to any one of the three lines which are involved in a life and death struggle for supremacy. With freight as the life blood of railroading any further source of income would be eagerly seized upon.

PURCHASES SIGNIFICANT

The decided tendency toward recent purchases in Richmond is also indicative of the attention this city is commanding as a commercial and industrial center of the future.

James P. Murphy Is Laid At Rest

Last rites were conducted yesterday morning at 10 o'clock from St. John's church in El Cerrito for James P. Murphy, well-known insurance man of that city, who passed away at the Weimar sanatorium last Saturday. Interment followed in St. Joseph's cemetery.

Members of Berkeley council, Knights of Columbus and Burke Council, Young Men's Institute attended the services in a body. The cortege left the family home, 1502 San Pablo avenue at 9:30 o'clock under the direction of Bert Curry.

Deceased who was 44 years of age is survived by his widow, two sons and three brothers.

**Grocers Prepare
Radio Program**
MARTINEZ, Nov. 8.—Alameda and Contra Costa county grocers, members of the grocers' association, have broken into the radio broadcasting field and have planned some feature programs for radio listeners. Broadcasts will be made over Station KLLX.

Tour Of Country Told Lions By Richmond Man

Dr. U. S. Abbott yesterday told the members of the Richmond Lions club of his recent automobile tour in the eastern and southern sections of the country.

Reports on the meeting held in the Athens club of Oakland and Hayward clubs were made by H. H. Mylander, John Miller and E. H. Higgins.

Dr. Hall Vestal called the attention of the members to the opening of the Red Cross Roll Call Friday and Claude E. Clark spoke on the Boy Scout Court of Honor to be held in Lincoln school auditorium Friday night.

Miss Matilda Meyer and her dancing kiddies entertained the members. Special numbers were given by Eleanor Bronsels, Grace Childs, Jennie Walker and Dorothy Heineman, accompanied by Miss Emma Meyer.

City Council To Consider Sewer Needs Of City

The addition of a large sewer to care for both storm waters and drainage, of the business section of Richmond, and as far up as Thirtieth street, will be considered by the city council, in the next year, according to City Councilman A. L. Paulsen. The present sewer is twenty inches in diameter and empties into the inner harbor at the foot of Tenth street.

The rapid growth of the city is making this sewer obsolete, Paulsen says, and it will be necessary to add another.

Articles Filed For Catholic School

MARTINEZ, Nov. 8.—Missionary Society of the Salesian Congregation, a Catholic organization, which recently established a school at San Pablo, today filed articles of incorporation with County Clerk J. H. Wells.

The directors of the organization are Manuel Manassero, Frederick Barni, Charles B. Redahan and Oreste Trinchieri of San Francisco, and Joseph Galit of Oakland. Manassero is president of the congregation.

WOMEN VOTERS

Women voters anxious for the advancement of the members of their sex as serious candidates and aspirants for public elective and appointive office are disturbed over the inclination on the part of the men aided and abetted by certain women, to advance women candidates over men because they are women and not because in a cold-blooded comparison of the two sets of candidates they are better fitted.

The tendency to nominate the widow of a deceased office holder to his post and salary is admirable from a sympathetic standpoint, but it is harmful to the whole cause of woman suffrage. These are cases where the salary is an absolute necessity, but that defense has been swept away in recent cases where the woman has been promoted not on the decrease of their husbands, but because of conditions which have brought about the retirement from or removal of their husbands from office.

When asked whether he intended traveling abroad after he is out of the White House, the President is reported to have said that he saw no reason why he should want to leave this country. Which remark is re-printed here for the earnest consideration of those restless Americans who spend most of their touring days in Canada.

A New York woman whipped a physician the other day because she says he promised to marry her, and then got hitched to another woman. Our guess is that the doctor missed a lot of trouble by not sticking to his first agreement.

One hundred giant red wood trees have been presented by the State of California to the government of Belgium. All of which is very fine, but we are wondering whether Belgium will have room for them.

It is announced by motor officials that there will be no war between Henry Ford and General Motors. Another great victory for the League of Nations.

Gum on the United States postage stamps is said to be a real foodstuff. But making a meal of two-cent stamps would be expensive.

Championship fights between Dempsey and Tunney seem to be like peace conference. The decisions never settle anything.

Speaking of more wars it's out idea that it wouldn't be good business to start another one until the last one is paid for.

Now is the time for the old reliable goose bone prophet to get a little publicity.

Vigorous Health

P. J. VEAVER, D. P., S. T.

WHAT IS DISEASE? Disease is commonly considered to be some sort of a demon or orge which attacks one unexpectedly. You may not think that this is your idea, but a careful analysis will reveal the fact, though you may call the demons germs. The real fact that so-called disease is largely a process of getting well is difficult for most people to understand. The fact that we are responsible for our own disease and have brought them upon ourselves through wrong habits of living is very hard for most people to accept, as they hate to assume the blame. However, if any one who is ill expects to get well, he will have to get the right conception of disease in order that he may take the necessary steps to restore a normal condition. Trying to get health out of a medicine bottle will only result in disappointment.

Disease is really only inharmonious and if we change our habits of living so as to stop interfering with the body and to assist it in every possible way, harmony will be restored. The symptoms which we are accustomed to calling disease are only signs that the body is making extraordinary efforts to restore a normal condition. All so-called diseases are merely different manifestations of the same cause, which is a lowered vitality and an accumulation of toxins in the system brought about through wrong habits of living. If people would only get this fact burned definitely into their minds they would be more ready to take necessary steps to get well. Those who are not ready must continue to suffer until they learn wisdom.

Recovery is always possible, and is largely a matter of re-education. It will be my aim to assist, as far as possible, in re-educating those of you who need it.

Screen Stars Are Finicky In Dress

Speaking of fashions—screen stars have their own personal preferences and fancies. These are followed to the fullest possible extent, the star picking out the color and the material of her gowns and having a voice given only in authority to that of the head costume designer. The fact that she wants within reason and this gives her public an index to her taste and whims.

Paula Negri adores metal cloth brocades and rich Oriental fabrics. Babe, Daniels is passionately fond of white tulle, of white lace, of silver and gold. She is quite partial to chiffons.

Theda Bara is wild about taffeta and she likes color effects. Her favorite is jade green.

Eather Johnston has an unquenchable aversion for yellow and is fond of satins and velvets.

Florence Vidor wants rich simplicity and goes in for smart tailored clothes. A wardrobe for her always must include at least one black velvet gown.

Jewelry is another element of costume in which personalities express themselves distinctively. The designers keep their eyes on that too, for example:

These personal preferences all have to be compromised of course. The stars must wear what the director, the executives and the fashion designer believe are the proper costumes for the picture being filmed. If it is a period picture, the styles of that date must be adhered to rigidly. If it is a modern picture, the most difficult problems. To be smartly correct today, a hat must be worn so as to shade the eyes slightly. The star and the designer vote for the smart effect. The camera man insists on seeing the eyes. The director has to adjust these viewpoints so as to make each one happy.

WHY I BLUSHED

One day my friends and I went home by the subway. As soon as I got into the train every one began to laugh. I got off at 96th Street station and was going up the stairs when a boy stopped and began to laugh. I was angry and asked him what was the matter. He took off my coat a square paper reading:—"Won't you please help me to find a husband?"

MISS M. ISRAEL

What Your FACE TELLS

©c. 1927- by Betty Morrison PSY.D.

THE SHORT THUMB MAN NEEDS THE AIR!

Yesterday's illustration suggested the long active of intellectuality. This

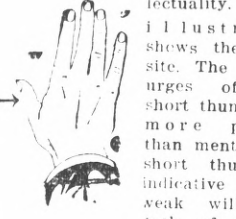

illustration shows the opposite. The inward urges of the short thumb are more physical than mental. The short thumb is indicative of a weak will and lack of energy.

When the thumb is naturally short, it suggests an indecision in character, an uncertain temper and a moody disposition.

If it is unnaturally, extremely short it indicates a violent temper, which may go even to the extreme of brutality.

The manner in which a thumb is set is of importance.

A thumb high on the hand does not indicate such fine intellectual gifts as the thumb set low. It suggests animal cleverness and a kind of shrewdness of the lowest kind. The latter denotes the better, stronger qualities of character—reason, sympathy, kindness, generosity, determination.

Individuals of short thumbs and the attendant lack of ability to make decisions should train themselves to "stand on their own feet" and face problems squarely, forcing themselves to make decisions. For outbursts of temper they should revise their habits of living, giving themselves added hours of rest and relaxation and exercise in the open air cultivating the fine dignity of living.

YOUR MARRIAGE PROBLEMS

SAYS THE WOMAN

Dear Patricia Lee—

I am a widow and am living with my only son and his wife. My daughter-in-law and I do not get along very well and things have reached the point where our home life is not very happy for any of us. Whenever I offer the slightest suggestion regarding the management of the home she says I am meddling and interfering. Now, hasn't a mother who has sacrificed everything for her son, who has raised to manhood and fitted him for earning a good salary, a right to say something when she sees his hard earned money being wasted, his home neglected and his health ruined by inferior cooking? Has she no right to interfere when she sees his money being wasted on fine clothes, idle amusements, etc? Has she no right to scold when she sees her only grandchild allowed to run wild? But what can I do?

MRS. D.

You can do nothing, dear lady! Absolutely nothing. Certainly it isn't easy for a woman who has been at the head of her own household to take a back seat in her son's home. But that is just what you'll have to do, as far as household management is concerned. I wouldn't advise any back seat driving! Interference on our part at this time will only create antagonism and destroy any influence you might have over your son's wife. Let her learn from her own experience and profit by her own mistakes—just as you did when you were a young housekeeper. Be patient and kind, not critical; and be fair. After all it is her home and her husband! You have no cause to worry about your son. Most men manage to pull through the first years of marriage unharmed. Certainly there are mistakes, caused by inexperience—but few casualties!

SAYS THE MAN

Dear Patricia Lee—

I have been married six months to a very nice girl. She is all that a good wife could be to

the way of homemaker. She is

a splendid cook, keeps the house clean and neat and is always pleasant and agreeable. The thing which distresses me is her uncouth manner. She isn't the least bit careful about her dress, either. I am getting so I am ashamed to take her out to a restaurant because her table manners are so bad. She always appears to be disgruntled and I am thoroughly humiliated. For the same reason I never invite my friends to our home. This thing is getting on my nerves and there are times I feel I can stand it no longer. My parents live in Detroit and I have promised to take my wife for a visit to them during the Christmas holidays, but you can't realize, Miss Lee, how I dread going. Please don't think me a snob—but I was raised in a refined home, where the little courtesies of life were practiced every day and where uncouth table manners were taboo. Do you think my wife will ever change?

PHILIP F.

Do I think your wife will ever change? It all depends on you! If you have enough tact, enough patience, enough love for her, I sincerely believe you can do much toward bringing about a reform in her habits. No woman wants her husband to be ashamed of her. Your little wife is doubtless unconscious of the sins she is committing against table etiquette and will do her very best to reform if you will use a little tact in showing her the error of her ways. If I were you I would have a heart-to-heart talk with her. Tell her how much you love and respect her, then tell her that she is spoiling everything by her careless habits. Your native courtesy should make it easy for you to handle the situation.

MISTAKEN

Jack—I can't see why I don't make a hit with that girl. Is it because I don't take to her?

Joe—That's just it! If you took something to her she'd surely respond.

Man early recognized the great value of the banana as well as the fact that its suckers, even though partly dried and carried long distances, would readily take root and grow in a rich soil and warm, humid climate. Hence in establishing colonies or missions, in transporting slaves and providing against famine, the banana appears consistently in the historical records of tropical countries of both hemispheres.

Trouble Makes Whole World Kin; Red Cross Knows No Boundaries

"Now Tell Mother" is pre-
cisely what the world does
to the Red Cross when
trouble comes. An earthquake in
Japan, a flood in the United States,
a typhoon in the West Indies—the
Red Cross is first to learn about it
and to soothe the ravages of dis-
aster with relief. Miss Catherine
Lewis, formerly on the National
staff of the Red Cross, has deftly
symbolized the role of the Red
Cross in the above sketch.

Most of the world's disasters the
past year were centered in the United
States. The great floods in the
Mississippi valley headed the list
of 77 major catastrophes. More
than 600,000 refugees were depen-
dent upon the Red Cross for food,
shelter and clothing. 149 refugee
camps were established and scores
of volunteer nurses and doctors
waged war on disease. Fourteen
other disasters called for re-

How To End Constipation

If you want to get rid of con-
stipation for good, you must
cleanse the liver of its stored-up
bile and set it to working right.
Remember, it's a torpid, lazy liver
clogged with bile that keeps you
constipated. This surplus bile
poisons your whole system, caus-
ing headaches, bad breath, swollen
skin, sour stomach, gas, indiges-
tion, dizzy spells or other dis-
agreeable symptoms.
All that any ordinary phys-
ician does is to force a bowel move-
ment without getting at the liver.
What you really need is a
thorough internal cleansing with
Plantax, which brings out all the
accumulated bile and other foul
secretions.
Plantax is a most effective liver
tonic compounded from the
juices of extracts of harmless
plants—remedies from Nature's own
laboratory. It acts in a gentle, easy
way—no irritation, no weakness,
no loss of the organs. Large bottle \$1. On

Take a Look at Your Tongue

If you aren't feeling just right, go to
the mirror and look at your tongue.

That coated tongue tells you why
the least exertion tires you out, why
you have pains in the bowels, gas, sour
stomach and dizzy spells, why you have
no appetite and can't sleep. Try Tanlac
and see how much the first bottle helps
you. The cost is less than 2c a dose.

Tanlac contains no mineral drugs; it

RAILROAD FILM HOLDS BOARDS AT RICHMOND

Lovers of railroad stories, and
who is not, will be thrilled to
within an inch of their lives
when "The Runaway Express,"
a Universal-Jewel, comes to the
Richmond theatre, beginning to-
day.

In this stirring tale, which was
adapted to the screen from F.
Sparrman's "The Nerve of Foley,"
Director Edward Sedwick has cap-
tured and immortalized on the
screen, all the romance and the
heroism of the railroader.

In addition to realistic scenes,
showing the inside workings of
the tasks of trainmen and the
dispatching of the great, iron
monsters on their swift and ir-
resistible journeys, Curtis Benton
the scenarist, has interwoven
beautiful love story in "The Run-
way Express," between Joe
Foley, the brawny, good-looking
engineer, played by Jack Daugh-
erty and Nora Kelly, the sweet,
Irish waitress, portrayed by
Blanche Mehaffey.

A splendid cast has been as-
sembled in support of the two
leading players, including Charles
K. French, William A. Steele, Har-
ry Todd, Tom O'Brien, Madge
Hunt and others.

Other film features include
"What's Your Hurry," an Excuse
Maker comedy; and the latest
Fox News events.

"UNDERWORLD" IS DIFFERENT KIND OF FILM

The totally different picture is
here at last.

This is the interesting message
received by the dramatic critic of
the Record-Herald from a friend
in Hollywood who saw "Under-
world" previewed at Paramount's
studio.

"Underworld," he writes further,
is about the most amazing
green play I have seen in years.
It is a powerfully absorbing story
of crime and violence literally tak-
en from the life of a great city.
"Gangsters with machine guns—
polymen in a terrifying battle to
preserve order-bolted-haired ban-
ders in silks—exotic night life re-
sults in the habits of crime—
from rather, murderer's row in a
concrete and steel jail, all of
these are flashed on the screen
in a way that makes one imagine
the scene in the real environment
from which Ben Hecht wrote the
story.

"I tell you the plot would spoil
the climax for you when you see
the picture. I understand it is to
be run at the California Theatre
starting today. At any rate, you
will discover a moral in it. I
show, despite the sensational man-
ner of presentation. And it's the
old story that you can't get away
with it. Crime offers a short life
and a violent death.

"You will find much to admire
in the performances given by
the featured players—George Ban-
croft, Evelyn Brent, Olive Brook
and Larry Semon. They are ap-
plaud.

What the picture is to be "The
Covered Wagon" the city is to
be "Underworld."

This was the assertion of R.
Schubert, associate Paramount
producer, in announcing that Para-
mount's epic of gangster life is
now ready for public distribution.
"Just as the great plains sup-
plied a tremendous background,
representative of the whole west-
ern region of the United States
in the story of '49,' says Schu-
bert, "just so the City in 'Under-
world' is no certain city but is
typical of all huge metropolitan
centers where gangster life is pre-
valent as a constant menace to
society."

Joseph Von Sternberg directed
"Underworld."
Other features include "Masked
Mammas," a Mack Sennett com-
edy; "The Forward Pass," the first
of the "Football Sensation" series; and
international news.

Wolden And Brady Are Re-Elected

(Continued from Page 1)
Brady was re-elected over Maurice T. Dooling and Norman D. Cook. Dooling showed fairly well but Brady crept up a varying lead throughout the tally of the returns.

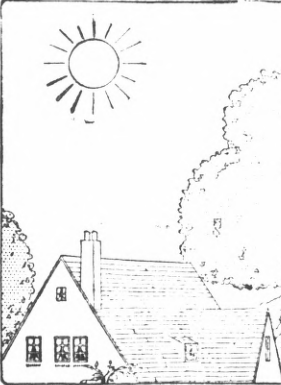

Cook made a poor showing against both Brady and Dooling. Brady seemed to be due for about 10,000 plurality.

Late figures cleared up the supervisory contest where 30 candidates were mixed into the battle for the nine places to be filled. Indications from figures covering a fair cross section of the city were that all of the incumbent supervisors who were in the race have been returned.

Gas keeps your city clean

A clean fuel means sunnier, brighter days

People who use gas fuel help keep their city clean.

For gas gives off no smoke or by-products that hide the sun's rays. The air remains pure. The sun shines brightly.

And why is gas so clean?

Because we "launder" the gas before it's sent to you. The gas goes through purifiers. It is cleaned in mechanical "scrubbers." Only pure gas that burns clean passes into the pipes that lead to your home. And gas is all fuel.

For cleaner, sunnier and healthier cities use gas for cooking, water heating and house heating.

BREACH OF PROMISE is alleged by Mrs. Ardis Pederson, pretty divorcee, shown above with her son, Norman, in the suit she has filed in Milwaukee against Gunkle Bergland (left), millionaire lumberman. Mrs. Pederson says he twice promised to marry her. He is 81, she is 27. Bergland denies the woman's charges, saying she formerly served him as housekeeper. Bergland, who is of giant stature and erect for his advanced years, is one of the most picturesque characters in Oosteragon county, Wisconsin, where the town of Grand was named after him.

Richmond To Send Delegates To Conference

Richmond will have 20 delegates to the Northern California Older Boys Conference at Berkeley, December 2, 3, and 4. Altogether 700 boys will attend the conference. Tracey Strong, executive secretary of the boys committee of the world of the Y. M. C. A., with headquarters at Geneva, Switzerland, will be the principal speaker. Frank Moran, conductor of the Moran school for boys, will also address the gathering.

Self analysis blanks were filled out last night by the members of the H-Y club, at the business meeting of the club. These blanks aid the members to gain an idea of their own abilities, and help in forming the "Y" program.

The program at the local Y. M. C. A. building today includes a meeting of the Friendly Indian clubs at 4:30 o'clock in the afternoon, followed by the Business Professional Men's gym class at 5:15 o'clock. The Pioneers will have a gym period starting at 6:30 o'clock, followed by H-Y and Y. M. D. basketball practice. The Young Men's division will also hold a business meeting, as will the Kit Carson Pioneers.

Re-Organization Of Scout Troop Planned For

There will be a complete re-organization of Troop 2, Boy Scouts of America, next Tuesday evening, it was announced at the meeting of the troop last night. Assistant Scoutmaster Edwin Brook was in charge, since Scoutmaster Fred Hess has resigned for business reasons. He is to be replaced by James McMurtrie.

Edward Hill was elected secretary-treasurer of the troop last night, and Guy Ripley took his place as senior patrol leader. The boys will put on a program before the meeting of the local post of the American Legion tomorrow night. George Irwin, Sherwin Brady and Frank Hafner are to demonstrate knot tying. Edwin Bergen, Jerry Wineshaft, George Irwin and Sherman Brady will put on a singing exhibition. Guy Ripley and Edwin Brook will show Scout first aid, and Brook will also demonstrate fire-building.

All boys wishing to join the Scouts are invited to attend the meeting of Troop 2 next Tuesday evening at 7:15 o'clock.

Party Enjoyed By Young Married People's Club

The Young Married People's club of the First Presbyterian church held an enjoyable party at the church last night with Mrs. and Mrs. S. H. Clarke as hosts. Games were enjoyed during the evening. The party was in the nature of a Thanksgiving affair, all the decorations following out the idea. The next meeting of the club will be a Christmas party, Tuesday, December 13.

Daughters of St. George to Elect Officers Tuesday

Reports of the food sale held by the Alexandria lodge, Daughters of St. George at St. George's hall in Oakland, October 29, were given last night at the meeting of the lodge, and indicated that the sale was a complete success. Officers will be elected at the next meeting, Tuesday, November 22. A social hour followed the meeting last night in charge of Mrs. E. J. Martin, Mrs. E. Valler, Mrs. Rose Yates, and Mrs. Elizabeth Rice.

WHEN YOUR HAND GOES TO YOUR HEART

Difficulty in breathing and heart palpitation are symptoms of high blood pressure, which may cut off life suddenly. Our modern habits of life are responsible, putting too great a strain upon the vital organs, especially the liver. When the liver becomes "limp" or sluggish it fails to cleanse the blood of the toxic poisons formed in food waste. The poisons then permeate the system, affecting stomach, kidneys, heart and blood pressure. The liver occasionally needs a little help, and there's nothing better for this, as medicine men today know, than a little ox gall. Ox gall is a great natural stimulant for the human liver, promoting its normal active functioning, so essential to real health. Dioxol tablets are genuine ox gall in dainty and tasteless form, each tablet representing 10 drops of pure ox gall. A few bring impressive results. To be sure of getting the genuine ox gall, be sure of getting Dioxol. They cost less than 2c each at druggists.

"Grass Fire" Death Theory Is Discounted

(Continued from Page 1.)

in a haystack. Even with that heat, the teeth were not destroyed and furnished a means of identification. The teeth in the El Cerrito case were burned as completely as the other bones. He told of the methods used by the government, in making sanitary the region of Mexico, occupied by troops in the expedition, when they poured crude oil and set fire to logs placed around bodies of slain Mexicans who had been left bound by their comrades and in these cases, the leg and hip bones were not even charred.

BLOW TORCH THEORY

Reifschneider is of the opinion that gasoline or other in small quantities were poured on portions of the remains and ignited by a blow torch. He discounted the use of acid stating that chemicals of this nature would pit the bones.

Further discredit to the grass fire theory was given by the fact that hair had not been singed while the other portions of the body had been reduced nearly to ashes.

The grass fire, according to Reifschneider, does not account for the crack in the skull as the fire was not of sufficient heat to make the skull bones expand.

Reifschneider's theory is that the man was murdered and that after the remains had mortified they were taken to the place where found and destroyed by intensive heat.

HASSLER STABILIZERS

on 10 Days FREE TRIAL
{at All "Western Auto" Stores}

YOU...wouldn't hesitate to make this same offer, if you were to install them subject to 10 days actual test, because, knowing how wonderfully they increase the comfort and pleasure of motoring, you'd be as certain as we are that every trial would become a purchase.

So...we don't ask you to accept our word, or the evidence of tremendous Hassler popularity...But, we do invite you to "Try Before You Buy"....

Our liberal offer is very simple...Just deposit the price of a set of new Hasslers...made especially for the particular weight and spring resistance of your car...We install them FREE, in less than an hour...and away you go to new riding comfort. Then, for ten whole days you test them, over every sort of road. At the end of that time, if they have not fulfilled our every claim, drive in and we will cheerfully remove them and refund the full purchase price.

This offer ends Saturday, November 12th

FREE Installation

All this week, until Saturday, Nov. 12th we will install your Hasslers FREE of charge. Just drive into our shop and...

In less than an hour...you can drive out so comfortably that you'll think you are in another car...

No More Galloping

Save Money...Save Nerves...Save Tires...Save Car...

The new Hassler Stabilizers catch the bumps before they reach you...little bumps, big bumps, strings of bumps...all bumps...disappear under the magic velvety cushioning of these noiseless, trouble-proof road levelers. This means greater riding ease, especially for those in the rear seat...it also saves your car and tires by absorbing the hammer-and-bang of road irregularities.

Not expensive either...Low prices on the new Hasslers are made possible by large production in an enormous factory which for fourteen years has produced nothing but spring control devices. And this first low cost is the last. None of the usual running to service stations for adjustments...no repairs...because the new Hasslers are waterproof...the simple, lasting mechanism is sealed against destructive dirt, mud, grit and slush. The only attention required is a shot of grease in the Alemite or Zerk fitting whenever you lubricate your car.

TRY BEFORE YOU BUY...
Save NOW on installation, and ride better forever...on Hasslers!

ALL RICHMOND PLAY OAKLAND CHINESE HERE

The All-Richmond gridlers will play their second game of the season at Nicholl park on Friday afternoon at 2:30 o'clock. This will be the only football game in Richmond on Armistice Day and is expected to draw a large crowd.

The crack Oakland Chinese will be the opponents and from their record of defeating Bay region teams, it looks as though the local boys will have to put up a big battle to win the victory.

The team will meet tonight in the Y. M. C. A. at 7:30 o'clock and all members have been urged by the manager, John Walker, to be present. Tickets for the game to be given to raise funds for uniforms and other equipment are now on sale through members of the team.

Dennis Shaw's orchestra has been secured to furnish the dancing which will be in East Shore park, Saturday night November 12.

S. O. PIN TEAM IS RUNNER-UP

The standard oil shipping department is now in third place in the Oakland league. The team rolls the Breemers for first place tomorrow night and a win is expected by the locals. Those who will bowl are: J. DeLaerrie, R. Fayer, I. Murray, G. Webster and R. Buttsbach.

LAUNDRY WORKERS OBSERVE FOUNDRY

The fifth anniversary of the Richmond laundry workers union was celebrated last night with a turkey dinner at Brotherhood hall. Those in charge included Viola Cox, Esther Wilson, and Jenny Gillette.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping." Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

Ed Sullivan's SPORT WHIRL

McTIGUE GETS A FIGHT UNDER HIS BELT

When word was flashed to New York from Chicago that Mickey Walker had put the boots to Mike McTigue in one round in the corner ring I thought back to McTigue's dressing room on the night he fought Tommy Loughran, and lost.

MIKEY WALKER MILLIGAN K. O. WAS TIP-OFF

I do not believe that McTigue anticipated any serious trouble from Mickey Walker when he signed for the match. Boxing critics certainly did not feel that McTigue was flirting with a knockout. McTigue's eagerness and craftsmanship, his weight advantage and his superior cleverness were figured upon to offset Walker's strength and hitting power.

Where everybody, including McTigue, went sour was in their failure to realize that Mickey Walker, at 162 pounds hits like a heavy-weight.

Mickey had proved that he had regained his punch when he knocked out Tommy Milligan in London. Nobody was knocking out Tommy Milligan at the time Mickey finished him, but those in the States are loath to place much credence in anything that happens outside the domestic ken.

Conceding that McTigue had been softened by Loughran, it is obvious that Walker must have clipped Mike with terrific blows to the head to have finished him so quickly.

WEIGHT, NOT NIGHT CLUBS, HURT

It is now evident that the necessity of making the weight of 147 pounds, rather than night clubs, caused Mickey's downfall as a welterweight.

Gaining weight is often so sapping a process that it results in a sure old age.

Mickey Walker, making 147 pounds, often went into the ring "up and as lethargic as an old man."

I remember the night he fought Joe Dundee, Baltimore Italian, at Madison Square Garden. Walker—and this is no exaggeration—could hardly get his hands up. At that time it was agreed that Mickey had been ruined by night life, although Mickey stoutly denied this.

It was pointed out that Mickey did not drink, and that the extent of his indulgence in cabaret life was the expert rendition of the Charleston, which at the time was the rage. The wise birds smiled patronizingly at the explanation.

Mickey, at the urging of Jack Kearns, became a middleweight and his fighting improved, though slowly.

I saw him in Chicago the night he fought Tiger Flowers. Although I thought that Flowers deserved nothing worse than a draw in this fight, the main impression was of Mickey's improvement. He was stronger in the tenth round than in the first.

The added weight had put new life into him.

Mickey was on his way back.

HIS RIPPING AND TEARING AGAIN

Right now Mickey is a big edition of the kid who ripped and tore so effectively that they named him the Toy Bulldog.

His tremendous popularity was due to the ripping, tearing attack he feared when breaking in under the late Jack Bulger.

He was a slam-bang fighter, never giving ground and always punching and slashing with both hands. His fall from popular favor was due to his inability to measure up to the standard he had established.

Lightning Quarterback Standing Still

YOU DON'T OFTEN SEE Husley Drury (center) in a quiet pose like this. And in this time he's leaning around at breakfast speed. Drury, captain and quarterback of Southern California Trojans, is outstanding favorite for all-American team. He beat California single-handed, gaining 291 yards of his team's 367-yard advance. (Above left to right): Howard Elliott, Capt. Trojans and Don Williams, Corner at N. Y. U. is Drury's only quarterback rival.

Another Grange On Grid Map

FOLLOWING in his more-famous brother's footsteps, Garland Grange (left), brother of Red, is making rapid progress as plucky warrior at Illinois. A great football figure is predicted for Garland, who is reported to be as good as his older brother. Photo above taken when both attended Illinois, shows him with Red.

Net Winners To Get Trophies

Winners of the recent tennis tournaments will receive their awards tonight at a social meeting of the Richmond Tennis club in the city hall, according to W. L. "Doc" Seawright. The meeting date has been changed from Friday because of Armistice Day.

The Zeb Knott trophy will be presented to Ncho Chasseur and Melvin Avila, winner of the boys' junior play, will receive the "Pop" Fuller cup. Miss Vivian Peterson heads the social committee that will be in charge of serving refreshments.

PISMO BEACH—Work on Pismo Beach-San Luis Obispo highway progressing rapidly.

Oil Employees Fined On Battery Count

John Quinn and Justin Newell, oil workers residing in Richmond, were fined \$50 and sentenced to 30 days in the county jail when they were found guilty of a charge of battery by a jury in the court of Police Judge C. A. L. "Doc" Seawright. The meeting date has been changed from Friday because of Armistice Day.

According to the charges sworn to by T. H. Wess, Quinn and Newell called at his home, 244 Nineteenth street the evening of October 1, and attacked him, inflicting bruises on his head, stomach and leg.

Both defendants pleaded not guilty and demanded a jury trial. Attorney Will S. Robinson represented the defendants and Deputy District Attorney Hiram Jacobs was in charge of the prosecution.

*Ties disregarded in computing percentages.

Today there is not a team of major importance on the Pacific Coast which has not been defeated or tied and within the Pacific Coast Conference three teams can claim perfect records when ties are disregarded.

Stanford, last season's champion, remains at the top of the heap by virtue of her victory over Washington and is the outstanding favorite, although Southern California and Idaho also have records without defeat.

The game in Berkeley between California and Washington next Saturday looms as the most important conference tilt of the week. California moved up from fifth place into a tie with Washington for fourth when the Bears experienced little real difficulty in winning from Montana.

California with its speedy backs and bag of tricks still remains a conference threat and if she can humble Washington might bring Stanford down from the place position. Washington is favored to defeat the Bears, however, for the Huskies outplayed Stanford Saturday and would have won, if the breaks had been anyway near even.

In any event U. S. C. will remain in first place until December 3, when after a hard trip to Chicago the Trojans meet Washington, and right now the odds on that contest are even. The California game may change things, for the Bears got a hard jolt when Montana led them 13 to 12 in last week's contest. The Bears were perhaps a bit over-confident and it was just as well for them that Montana did make things interesting.

HOTELS

STANDPOINT ON BRAKE, LIGHTS EXAMS IS TOLD

Commenting on the recent decision of City Attorney W. J. Locke, of Alameda, who declared: "Police have no more right to indiscriminately halt and examine the headlights or brakes of automobiles than they would have to indiscriminately halt and search a citizen on the assumption that he has broken the law," Chief of Police Dan Cox yesterday stated that if officers have reason to believe that brakes are faulty or headlights out of focus, the driver of the car has been stopped and tests made, otherwise the tests have been voluntary.

Chief Cox said yesterday that the weather had prevented the officers from starting the tests but that the work would be under way within a few days.

COUNTY HEALTH OFFICER NAMED

MARTINEZ, Nov. 8.—Dr. I. O. Church, health officer of Roswell, New Mexico, and former health officer of Topeka, Kan., has been appointed health officer of Contra Costa county by the board of supervisors in acting upon a reorganization of the county's health departments in a unified system. Appointment of Dr. Church was made on the recommendation of Dr. W. M. Dickie, secretary of the California Board of Health.

Unification of the county's health departments and its conduct under a system, inaugurated by the Rockefeller Foundation has brought financial assistance to the county from the foundation and the State Board of Health, each agency contributing \$2500 annually. The county's share of the expense of maintenance of the new department annually will be \$15,000.

Under the plan adopted by the supervisors a doctor who has specialized in public health work had to be retained and in this the supervisors looked to the State Board of Health for recommendation.

The only county health department that will not be included in the unified system will be the Richmond Health Center.

pieces of Alpha lodge Free and Accepted Masons. Cremation will follow in the Berkeley cemetery.

Lane was 46 years of age and a retired employee of the Santa Fe railroad. He is survived by his widow, a son, two brothers and a sister. The family home is at 544 Key boulevard.

APPROVED—Work under way on new 200-room hotel at N and 17th streets.

SCHEDULE ON NEW SCHOOLS IS MAINTAINED

Rain is not expected to interfere with the construction of the new Richmond Union high school and the Woodrow Wilson elementary school, according to City Superintendent of Schools W. T. Helms. Work on both buildings is progressing according to schedule, he declared.

The tile roof of the high school structure is completed and the under-roof of the elementary school is now ready for the tile which is being shipped here from New England and which will arrive this week. Pending the laying of the tile roof on the Woodrow Wilson school, plastering of the interior is being delayed as it is feared that the under-roof might spring a leak and damage the plaster.

Carl Overaa, contractor at the high school, stated yesterday that this structure will be completed for the opening of the fall term in 1928. Interior finishing, painting and tile work are now in progress at the high school.

The Woodrow Wilson school will in all probability be ready for occupancy by the opening of the new term in January. In the event that an unexpected delay occurs, Helms stated that the classes would be organized at the Grant school and transferred to the new school when completed.
